Our User Persona

Mr. West

Age: 38

Education: Master's Degree

Hometown: Ohio

Family: Engaged, not married

Occupations: College Professor,
Programmer

Likes: going to Dubai, attention, Linux

Dislikes: authorities, not getting his morning coffee

Goals:

- To make his presentations interesting for students
- To ask as many people as possible what is the difference between git merge and git rebase

Frustrations:

- When students don't meet the minimum requirements to pass the exam and he has to do another one (he will not do it)
- The fact that there is no dowry anymore
- People

Mr. West is a programmer but also a devoted college professor who really likes to “joke around”. Even though his jokes might not be really good, his life decisions may be even worse (according to his words): he’s always complaining about how tired he is of being a professor but he secretly loves it and wants to teach something useful to his students by making the lectures interesting and engaging.

The main idea and functionality of our project

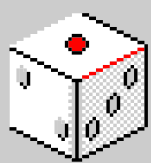

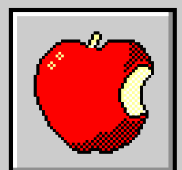

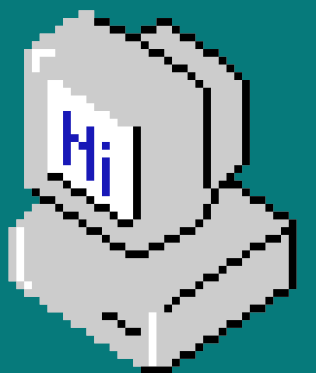

The following commands of VdovShell:

vdov quiz (allows user to create quiz on OOP discipline);

vdov meme topic (allows user to get a mem for presentation on a particular topic);

vdov help (outputs the list of all possible commands);

vdov goodafternoon (start command).

VDOV Shell

```
$ vdov quiz
```

```
What is the difference between method overriding and overloading?  
Give the definition for software architecture concepts?  
Decribe main features of an UNIX-like operating system.  
Give an example of a Factory class  
What is the difference between git merge and git rebase?  
Name some inheritance types.  
Give an example of a Decorator class  
What is the difference between dependency inversion and dependency injection?  
What are the disadvantages of MVP?  
Explain Liskov Substitution principle...
```

VDOV Shell

```
$ vdov meme oop
```

Enter your commands...

DETH

Thank you!
